## **Implementation**

TCID 396-50: Publishing and Selling Your Game  
Sydney Monn

I was trying to do something unique and I went ahead and created a carrd. If you do not know what it is, it is pretty much the same thing as Linktr.ee. All of the links will be in this link below

<https://amentalio.carrd.co/>

I started a discord server but have not added to it yet. I want to add a website to the link that is titled "Our Games" but I don't think I'll have the time to create a website. There is a video on Tik Tok and I tried to get instagram but they immediately disbanded my account and I have been trying to get it back but it won't send me a code. But I somehow still have an account under it so I will work on it in Implementation II and well as Discord.
